EXAMINER'S AMENDMENT

1. This Office Action is made in response to applicant's amendment filed on 11/5/2007. Claims 1, 3-5, and 7-21 are currently pending in the application. An action follows below:

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bill Lee on 1/7/08.

3. The application has been amended as follows:

Please amend claim 1, lines 11-13 from "determining a target luminance for each virtual primary such that all or substantially all of the real primaries are able to realize the target luminance of the corresponding virtual primary"

to -- determining a target luminance for each virtual target primary such that the target luminance is set equal to the maximal luminance that can be achieved by all or substantially all of the real primaries able to realize the target luminance of the corresponding virtual primary –

4. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a method for calibrating the color gamut of a light emitting display device. Claim 1 identifies the uniquely distinct features “determining a target luminance for each virtual target primary such that the target luminance is set equal to the maximal luminance that can be achieved by all or substantially all of the real primaries able to realize the target luminance of the corresponding virtual primary”. The closest prior art, Booth Jr. (USPgPub: 2003/0043088), Kojima et al. (USPN: 6313816), and Oguchi et al. (USPN: 6340976) disclose methods of calibrating a color gamut for a display but not for determining a maximum luminance value achievable by all or most of the pixels of the display, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven E. Holton whose telephone number is (571) 272-7903. The examiner can normally be reached on M-F 8:30-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner’s supervisor, Amr Awad can be reached on (571) 272-7764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
